DEVELOPER

Vattenfall Wärme Hamburg GmbH

PROJECT

Construction of a new gas distribution pipe in Hamburg-Altona

- Erection of a new heating plant on the Vattenfall grounds on Haferweg
- From here a distribution pipe to the Hamburg-Altona district to the south is required
- The pipe will be laid in earth with a plastic pipe casing with a nominal diameter of DN 500/600, DN 400/500 and DIN 300/400
- The estimated length of the pipeline is around 3.1 km

OUR SERVICES

- Soil and subsoil analyses
- Laboratory analyses for pollutants
- Expert services
