

INGENIEURGESELLSCHAFT FÜR BAUWESEN, GEOLOGIE UND UMWELTTECHNIK MBH

DEVELOPER

NRW Road Construction Service, Ruhr regional office

PROJECT

Construction of 2 new railway overbridges

- Construction of 2 new railway bridges over the A42 motorway directly west of the Recklinghausen junction
- The bridge structures will be erected as 1-span arched bridges with a span of approx. 65 m in the same route as the existing bridges

OUR SERVICES

- Subsoil investigation in the area of the A42 motorway and the existing bridge structures
- Soil mechanical laboratory analyses
- Subsoil evaluation and foundation works consultancy
- Geotechnical consulting for the foundation and necessary construction conditions
