PROJECT

Slope slippage Kotthausen

- Landslip at km 51.450 on DB track section 2810, Gummersbach- Marienheide
- Collapse of the cut slope on the right of the track
- As a result of the landslip soil spilled onto the one-track line over a distance of about 30 m and caused a suspension of rail services.
- Slipping mass in the loose/solid rock transition with the inclusion of water

OUR SERVICES

- Geotechnical inspection
- Investigation concept for field work
- Subsoil evaluation
- Study of options
- Planning of structural and supporting frameworks for remedial action
- Investigation concept for field work
- Environmental screening
- Landscape management support plan
- Species protection examination
