PROJECT

Suspicion of old mine workings
on the Dortmund HBF - Witten track

- DB section 2801 is a two-track section.
- Following a 2004 report on the mining and geotechnical situation and with regard to stability of the surface, there is a high likelihood that the section of track between km 24.000 and km 24.770 is susceptible in places to risks of sinkholes, subsidence and settling

OUR SERVICES

- Establishment of basis of the project
- Investigative and stabilization concept
- Invitation to tender
- Expert support for the investigative and stabilization measures
- Final documentation
