INGENIEURGESELLSCHAFT FÜR BAUWESEN, GEOLOGIE UND UMWELTTECHNIK MBH

DEVELOPER

Vattenfall Europe Wärme AG

PROJECT

Network pumping station, Wilhelmsaue

- A trench of 20 x 10 m and with a depth of 20 m will be dug in the immediate vicinity of two residential houses on Barstraße in Berlin-Wilmersdorf
- Due to the spatial proximity of the neighbouring rental property, this could possibly have effects on the building

OUR SERVICES

- Recording of evidence of the effects of construction
- Visual recording of construction-related damage to the building fabric
- Vibration measurements in accordance with DIN 4150-3 in the building Barstraße no. 46, which is immediately next to the planned trench
