PROJECT

Slope stabilization on the A8 motorway

- Six-lane expansion between Hohenstadt and Ulm
- Steep slope at construction km 30+050 to 30+200 and 27+100 to 27+300
- The widening of the A8 motorway entails encroachment on the existing slope
- The foot of the slope is relocated up to approx. 10 m further back
- The height of the cutting is up to approx. 10 m
- A steep slope with an incline of approx. 60° is intended

OUR SERVICES

- Project and structural engineering planning up to execution planning
- Planning of the slope stabilization for the steep slope between km 30.050 and 30.200
