PROJECT

**Renewal of railway bridge over Herner Straße
B51 Wanne - Eickel**

- Renewal of the railway bridge over Herner Straße, B51 in Wanne Eickel, DB section 2200, km 9.08
- The structure consists of three parts: a central arch and 2 side parts for cyclists and pedestrians
- The central arch has a headroom of 7.50 m and is built flat on gravity abutments
- The two side parts have a headroom of 3.50 m
- The renewal is intended to comprise the complete demolition of the bridge structure including the abutments

OUR SERVICES

- Subsoil analyses
- Subsoil evaluation and foundation works consultancy pursuant to HOAI
- Environmental analysis and evaluation
- Clarification whether modification or stabilization measures are required in respect of any impact from mining
