PROJECT

Conversion of Centrum Galerie Dresden

- Conversion of the multifunctional shopping centre located in Dresden city centre
- Restructuring of the rental areas from the basement to the 2nd floor
- Creation of new commercial areas
- The shopping centre has a gross surface area of approx. 105,000 m² and approx. 880 parking spaces
- The project affects approx. 19,500 m², with conversion taking place while the centre continues in operation

OUR SERVICES

- Technical planning of the subsoil/foundation for retrospective foundation laying
- Subsoil investigation
- Existing foundation underpinned by high-pressure injection
- Retrospective foundation laying for extended load distribution
- Water rights application
- Project and structural engineering planning (performance phases 2-4) for the retrospective foundation laying
