## PROJECT

**Redevelopment with construction of new annexe,  
Reichenschwand castle**

- The main building of Reichenschwand castle, which dates from the late Middle Ages, is undergoing extensive redevelopment
- The building is located on an island
- As well as work on the roof and facade, the circumferential sleeper wall is being sealed by masonry injection to prevent rising damp
- An annexe (approx.. 60 m<sup>2</sup>) is being erected in the rear south-facing courtyard to provide additional space

## OUR SERVICES

- Investigation of the groundwater situation
- Determination of the soil conditions and the load-bearing situation in the area of the planned annexe
- Investigation of the situation in the area of the buried tank
- Subsoil report and hydrogeological report
