

DR. SPANG

INGENIEURGESELLSCHAFT FÜR BAUWESEN, GEOLOGIE UND UMWELTTECHNIK MBH

## DEVELOPER

State office for construction, Nuremberg

## PROJECT

Highway 2236 (Alfeld-Hersbruck) at Regelsmühle

- Some sections of highway 2236 in the Albachtal valley run alongside rocky slopes
- In May 2011 rocks fell from a section of rock approx. 45 m long and up to 15 m high
- A geotechnical inspection to assess the risks was ordered
- Removal of rock in order to eliminate acute risks
- Extensive rock stabilization measures by means of netting and rockfall protection fencing

## OUR SERVICES

- Geotechnical investigative services
- Inspection of the rock sections by rope
- Project and structural engineering planning (performance phases 2-7)
- Specialist support for construction works
- Supervision of works and documentation
- Measurement and invoice verification
