

DR. SPANG

INGENIEURGESELLSCHAFT FÜR BAUWESEN, GEOLOGIE UND UMWELTTECHNIK MBH

## DEVELOPER

District of Eberstadt, construction department

## PROJECT

Rockfall protection, Gewann Steinberg, Eberstadt

- Rocks and boulders up to several m<sup>3</sup> in size have repeatedly broken loose from a ledge on the Steinberg to the north of Eberstadt
- The ledge is approx. 200 m long, 10 to 15 m high and an almost vertical Schilfsandstein formation
- The ledge is heavily fissured and in some areas grooved by the weathering of the underlying layer of rock

## OUR SERVICES

- Geotechnical investigative and consulting services for rockfall protection
- Geotechnical site survey of the ledge
- Assessment of the stability of the ledge
- Elaboration of stabilization and renovation proposals including cost estimate
