PROJECT

Road 2162, renewal of overnetting

- At Enzendorf on road 2162 the overnetting, which covers an area of approx. 2,500 m², is in need of replacement
- The protection was laid down in the form a hexagonal wire mesh when the slope was built (about 30 years ago)
- In some places it is not fixed adequately to the surface of the rock
- Sizeable accumulations of material up to several cubic metres in size on the mountain side

OUR SERVICES

- Planning services pursuant to HOAI § 42 and HOAI § 49, service phases 3, 5 - 7
- Renewal of the protection
- Local upgrading and supplementing of the existing overnetting (rock nails, protective nets)
- Erection of the rockfall protection fence
