PROJECT

Demolition of buildings, Wittener Straße 21 in Witten

- Construction of a new residential and commercial building at Wittener Straße 21 in Witten-Herbede
- At present the property is occupied by a two-storey flatroofed building built in 1982
- The building to be demolished is currently used as shop space for a Netto discount supermarket and a flower shop

OUR SERVICES

- Analysis of the pollution existing in the fabric of the building
- Estimation of the costs of removing contaminated building materials
- Risk assessment
- Preparation of a rough demolition and redevelopment concept
- Disposal concept for the existing building
