DEVELOPER

DB ProjektBau GmbH, Frankfurt

PROJECT

Renewal of roadbed, Flörsheim - Hochheim

- The entire roadbed of track section 3603 Frankfurt am Main - Wiesbaden, km 26.180 to km 27.460 between Flörsheim and Hochheim is to be renewed
- Several supporting walls must be replaced
- The stability of the railway embankment will be permanently improved

OUR SERVICES

- Geotechnical evaluation of the existing geotechnical and geodetic measurements
- Drafting of an investigation programme
- Performance of subsoil investigation with probing in the track beds and core borings in the embankment and in the vineyard
- Preparation of a subsoil expert report with geotechnical assessment of the slope stability and recommendation of renovation options
- Expert support for the planning
