DEVELOPER
VAG Verkehrs-Aktiengesellschaft, Nuremberg

PROJECT
New tram line Thon-Am Wegfeld, Nuremberg

- Construction work in the area of Erlanger Straße will produce soil from demolition and excavation works for disposal or reuse where appropriate
- This is to be sampled on the site itself, at disposal facilities or in intermediate storage areas and declared in compliance with waste legislation
- The amount excavated will be approx. 126,000 tons

OUR SERVICES
- Sampling and declaration analysis of excavated soil
- Expert report services
- Environmental and waste consultancy
