DB Station & Service AG, Stuttgart

Modernization of railway stations on the “Seehas” line

- DB Station & Service AG is planning to expand and modernize the stations and stops on the "Seehas" line as part of the Baden-Württemberg station modernization plan.
- This affects track sections 4000 Mannheim-(Basel)-Konstanz and 4250 Offenburg-Singen (Htw) and the following stations or stops: Engen, Welschingen-Neuhausen, Mühlhausen, Böhringen-Rickelshausen, Markellingen, Allensbach, Hegne, Reichenau, Konstanz-Wollmatingen and Konstanz-Petershausen.
- In the majority of cases platforms are being built or extended.

Our Services

- Stereoscopic analysis of wartime aerial photographs for suspected presence of munitions.
- Subsoil investigation.
- Investigation of existing contamination and composite sampling for chemical laboratory tests.
- Subsoil evaluation and foundation works consulting.
