PROJECT

Track crossing of the FWO water pipeline in the expansion of the DB Nuremberg-Ebensfeld railway line (VDE 8.1)

- Relocation of a water pipeline at track km 17.993
- The pipe has a diameter of DN 700 and for the crossing is housed in a protective steel tube with an outer diameter of DN 1100
- Water retention measures require the excavation of a start and a target pit for the approx. 42 m-long throughpress section

OUR SERVICES

- Subsoil investigation
- Subsoil report
- Hydraulic calculations
- Water right application
- Calculation of construction water drainage requirements
- Assessment of groundwater conditions
